Manchester, New Hampshire City Directories 1910-1921

There were MANY people living at each address. Beginning 1917 the City Directories listed by name and ADDRESS. I have added names of other people at those addresses in case they were related. If you recognize any of the names, please email and tell me the relation! The colors only apply to that one year and highlight more than one person listed as living at the same address. Please note that wives were not listed until later.
